WHEN DOES THE PROGRAM BEGIN AND END? The rebate program begins January 1, 2019 and ends December 31, 2019, or when program funds are exhausted. The payment of a rebate under the program or this agreement is subject to available funds. If available funds run out during the program year, RMPA may elect to carry over applications until the next program year. All eligible purchases must occur during the rebate program.

Completed and approved applications should have a rebate check issued within 60-90 days after the application is received at the RMPA office, subject to available funds. No applicant has a legal right or other entitlement to receive rebates under the program or this agreement. A completed application does not bind RMPA to approve or pay a rebate to any applicant.

An applicant may be suspended from, or declared ineligible to participate in the rebate program if the RMPA determines that the applicant or propane marketer has submitted false information or otherwise violated program terms and conditions. Within 30 days after RMPA suspends or declares an applicant or propane marketer ineligible, the applicant or propane marketer may appeal the action by submitting the appeal in writing to RMPA. Actions taken by RMPA with respect to the appeal will be final. An applicant or propane marketer who submits false information pertinent to a rebate is subject to criminal and civil penalties including U.S. Mail fraud.
