

## WARRANTY

The Warranty is effective for one year from the date of shipment from our factory and includes defects in material or workmanship only. Items covered under such warranty must be used as recommended by Smith Precision Products Company as outlined in various literature published by Smith Precision Products Company. Items that, in the opinion of Smith Precision Products Company, have been abused, altered, damaged or misused, are not covered under this warranty. Items for which a Warranty Claim is made, must receive prior permission from Smith Precision Products Company for return. Such items are not covered under this warranty if they have been tampered with. This includes, but is not limited to, taking an assembled item apart before returning it to Smith Precision Products Company. Smith Precision Products Company will examine the returned item under such Warranty Claim and make a determination as to whether such claim has merit. If defects in the material or workmanship are found, Smith Precision Products Company will repair such item, or replace such item, at its sole discretion at its cost. Smith Precision Products Company is not responsible for any associated shipping costs. Such costs to return items under a Warranty Claim and such costs associated with returning to the claimant are to be paid by the claimant. Items Smith Precision Products Company does not manufacture, but strictly resells, are not made a part of this Warranty. Claims for consequential damages are not made a part of this Warranty. Smith Precision Products Company makes no other Warranty or Guarantee, expressed or implied.
