Plant Building & Upgrades

Teeco Products offers a complete range of equipment for the Propane Industry.

We are committed to excellence in all we do.

Our team will help provide you with a complete package and a one-stop shop

1. We provide a template package.
2. You modify, add or substitute as needed.
3. We'll stage and have everything ready when you're ready.

We also provide referrals through our partnerships with trained propane professionals

Bulk LP-Gas Storage Facilities
Commercial and Industrial LP-Gas Systems
Back-Up Energy Systems & Facilities
Engine Fuel Dispenser Systems
Transshipment Terminals for Railroad Tank Cars & Truck Transportation
Retail LP-Gas Service Facilities

Quality LP Gas Products from a Company You Can Trust

Outside the Box

With Jay Stephens

President, Teeco Products

Hello all – Now that our warm winter (at least out West) and average spring are behind us, it is time to look towards a summer of tank refurbishing, plant upgrades, truck repairs, agricultural business and resale dispenser installations to offset the lower winter gallons. Teeco and Ray Murray are ready to help.

Residential - We have a full range of equipment from start to finish. You can complete your entire project with tanks (above ground and below ground), anodes, tracer wire and tape, regulators, poly pipe, Schedule 40 fittings, flexes and appliances - all stocked and ready to ship.

Agricultural & Industrial – Vaporizers, compressors, Schedule 80 pipe, forged steel fittings, steel flexes as well as thread tape and pipe dope.

Dispensers and Pump Plates – we can build you a full skid ready to set on the ground, a dispenser for you to plumb to your tank, or simply provide the parts and pieces for the do-it-yourselfer.

Whatever your project, we are ready for you. As we like to say, "Oh yeah, we got that!"

I also want to extend a warm 'thank you' to all of our wonderful customers, suppliers, manufacturers and friends that visited us in Portland, OR at the annual Western Propane Tradeshow. You likely attended some very informational seminars, en-

joyed great meals at the local awesome restaurants (a Big Shout Out to the RingSide Steakhouse!!), played golf at Pumpkin Ridge Golf Course – thanks for planning Rob! - and of course visited all your favorite distributors displaying our wares.

The weather was perfect – over 50 and under 90 degrees. Not great for propane sales, but spectacular when you are out and about.

Another thank you goes out to all those that donated, bid on and won items at the Silent Auction. The scholarship fund benefited from your generosity, as well as your participation in the golf tournament. Once again, the students are the real winners as they take the next step in their education at technical schools and colleges across the US. We could not have done this without your generous support and donations.

Enjoy your summer everyone!

Jay Stephens

Words to live by –

If your actions inspire others to dream more, learn more, do more and become more, you are a leader.

- John Quincy Adams

Inside **TEECO**

Welcoming Jack Meier to Teeco's Sacramento, CA Location!

Jack recently joined Teeco's Sacramento Warehouse Team.

Before joining the Teeco Team, Jack worked for 1-800-GOT-JUNK. He also got paid to play video games and even competed in tournaments. He's married with two children, a boy and a girl, and once had a pet hedgehog.

When he's not working, Jack enjoys hiking, trailing, lake and river kayaking, skiing, entertaining his kiddos and dad life in general.

Please join us in welcoming Jack to the Teeco family!

Teeco Topics is published four times yearly by Teeco Products as a service to our customers. 4,000 copies are distributed to customers and selected LP Gas industry leaders.

About With*

Rocky Mountain Propane Association Spring Conference

This year's RMPGA Spring Conference was held at the Tamarack Resort in Donnelly, ID and focused on Safety, Training and Compliance.

Teeco Regional Sales Managers, Mike Lorenz and Randy White, were joined by our parent company, Ray Murray, Inc. President, Mike Hopsicker. Mike is currently serving as the NPGA Chairman and was a featured speaker, giving an update on the national propane industry.

The event also featured Stop the Bleed hands-on training and the new Every Day Safe program for the propane industry.

There was fun to be had as well. And although Teeco's sponsorship of the Cornhole Tournament wasn't enough of a lucky charm to get our guys the trophy, the board sure looks cool.

You can join the Teeco Team and other industry friends at the RMPGA Fall Meeting, September 1-3, in Bryce Canyon, Utah

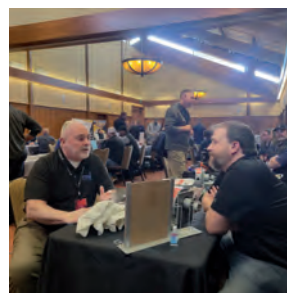

Colorado Propane Association Spring Meeting

The Spring Membership Meeting in March offered a chance to gather with industry associates and discuss industry related topics. Teeco Regional Sales Manager, Gavin Sharp, attended this year's events in beautiful Golden, Colorado.

Ed Staub Vendor Expo

Randy White, Regional Operations Manager of Teeco Auburn, WA & Kevin Bayley, Business Development Manager for Plants and Trucks at RMI took part in the annual Ed Staub Vendor Expo in Sunriver, OR in April. The Staub team put on a great event with plenty of time to catch up with their vendors and product manufacturers.

Upcoming Industry Events - Mark Your Calendars!

Colorado / New Mexico Propane Convention

June 15-18
Ignacio, CO

North Dakota Propane Convention

June 23-24
Medora, ND

Pacific PGA Summer Conference

August 12-14
Stevenson, WA

Arizona PGA Annual Meeting

August 25-27
Prescott, AZ

Rocky Mtn Fall Conference

September 1-3
Bryce Canyon, UT

Western Propane Convention 2026

The Western Propane Convention week featured plenty of opportunities to hang out with industry friends - and meet new ones - including multiple receptions and the Thursday evening Hospitality Event at Met Tavern, which Teeco / Ray Murray, Inc. co-sponsored.

Thanks to Jon Leon for sharing his photos of the convention and related events! If you need a photographer in the Sacramento, CA area, he can be reached at jonleon@gmail.com.

Convention Raffle

This year's raffle featured an array of gift cards and other prizes donated by sponsoring companies.

Ryan Nootenboom of Skagit Farmers Supply won the \$500 gift card donated by Teeco. Congrats Ryan!

Silent Auction

Thanks to everyone who donated and bid on items at this year's Silent Auction! This annual event benefits the WPERC Scholarship Fund for graduating high school seniors who are dependents of WPGA and convention co-sponsors who are continuing their education at an accredited institution.

The event was once again able to provide a healthy contribution to this fund.

For more information on the scholarship program, contact the WPGA at 916-447-9742 or info@westernpga.org.

Golf Tournament

This year's golf tournament was held at the stunning Pumpkin Ridge Golf Club.

The course has hosted numerous tournaments over the years, including LPGA, LIV, Korn Ferry, and U.S. Men's and Women's Amateur Golfers enjoyed the course and there were many stories to be told...

Waterfall & Nature Tour

This excursion allowed participants to get out of the city, slow down and take in the beauty of Oregon's most iconic landscapes – from lush mossy trails to cascading waterfalls and breathtaking viewpoints.

Led by a local guide, the group enjoyed a scenic drive through the Columbia River Gorge and waterfall stops with ample time for viewing, photos, and a bit of exploring.

Essential Tools for Service Techs

HGX-2D Multi Gas Leak detector with LEL display

Features:

- Intrinsically safe
- Certified for hazardous environments Equipped with push-button operation Field calibration
- Backlit display
- Audible tick
- Adjustable alarms Long-life, low-cost sensor
- Displays PPM & LEL 2-year Warranty

- Low-Cost
- Accurate
- Durable
- Easy to Use
- Easy to Maintain

HGX-2D

Accessories

Item #	Description
881-00073	Manual Calibration Kit

NEF6LM Power Flaring Tool

- Create seamless flares with the press of a button!
- Long-lasting battery - 100 flares on a full charge
- <30min to charge
- Flares tubing sizes from 1/4" -3/4"
- Kit includes tool, battery, charger, dies, & carrying case

Power Tube Bender NTB7L

- Bend tubing with ease!
- 1/4" - 7/8" tubing
- 100 Bends per charge
- <30 minute charge

SL-V2-KIT Sleeve Lead Boring Tool

Sleeve Lead is a new solution for boring across areas that cannot be crossed with an open trench.

- Sidewalks
- Driveways & Pads
- Patios
- Areas with heavy root cover
- Turfed areas
- Retaining Walls

Sleeve Lead Features

SL-V2-KIT consists of a forged steel cone shaped boring tip & impact end cap.

- Cleaner, quicker, and simpler than the water boring method.
- Lightweight, compact and easy to store on any work vehicle.
- Leaves no voids in the soil.
- More cost effective than other bore sleeve products.
- Any length of 2" Schedule 40 PVC sleeve can be used.

Easy Installation

- Use a sledgehammer to drive a 2" Schedule 40 PVC pipe through the soil with cone tip and impact end cap.
- PVC is left in place and used as conduit.
- If obstacles are encountered, the included pull-cord may be used to remove the assembly and try again in a different location.

- Pleasant citrus scent
- Alcohol-free and solvent-free

20 Smart-Hose®
TECHNOLOGIES
Years INDUSTRIAL TRANSFER
SAFETY INNOVATIONS

Smart-Hose® Celebrates 20 Years!

**"It's an exciting milestone for our company,
and we're grateful for partners like Teeco who
have been part of our journey."**

- Andrea Guevara

Smart-Hose® Technologies produces passive, integrated safety hose assemblies, break-away hose assemblies, and break-away adapter/coupler products for industrial transfer applications.

LL1 Hose Assembly

LL3B Break-Away Hose
Assembly

In their Safety Hose Assemblies, integrated valves will instantaneously stop product flow if a catastrophic failure occurs. No human intervention is needed to activate the system.

Their Break-Away Hose Assemblies provide catastrophic hose failure protection plus an engineered break-point built into the end fitting. They are designed to protect plant, tank truck, rail car, loading arms, and the workforce from the hazardous consequences of a pull-away incident.

Their Break-Away Adapter/Coupler products provide break-away protection and offer the flexibility to be used with Smart-Hose® Assemblies, conventional hose assemblies, or where no hose attachments are required.

The Smart-Hose® Safety System can be incorporated into hazardous transfer hose assemblies from 1/4" ID through 8" ID, and break-away technologies in 1 1/4", 2" and 3" ID. Full-flow Technology at a price significantly less than conventional break-away apparatus.

Smart-Hose products operate in a variety of Industries and applications:

- ♦ LPG transfer ♦ Chemical transfer ♦ Petroleum transfer ♦ Railroad car loading/unloading ♦ Tank truck loading/unloading ♦ Loading arm applications ♦ Chlorine transfer ♦ Ship-to-shore transfer ♦ High-pressure cylinder filling ♦ Compressed gas transfer ♦ Cryogenic applications ♦ Agricultural/NH3 Applications
